Split Clamp Assembly (If Included)

### Step 1

Step 2

Step 3

Tighten M8 screw

Clamp width guide

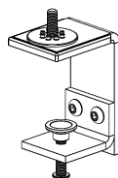

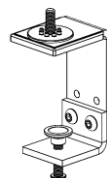

| <25mm | 26 – 47mm | 48 - 69mm | 70 - 93mm |

Step 1: Attaching pole to clamp

- Using the M8 x 30 countersunk screw, attach the L part of the clamp to the pole
- Tighten the screw firmly.
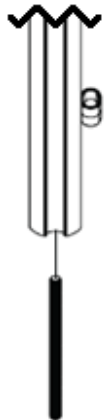

Step 2: Assembling the clamp

- Attach the small L to the large L using 2 x M8 x 12 button head screws. Position as per clamp width guide and rest in designed position.
- When securing to the desk, place the rubber pad underneath to protect the surface.
- Screw the M8 x 40 button head screw through the small La and place the clamp foot on top.

Step 3: Securing to the desk

- Using the supplied hex key, tighten the M8 button head clamp screw.

## Kidney Grommet Clamp Assembly (If Included)

Step 1

Step 2

Step 3

Hole size guide

Ø8.5mm Min
Ø50mm Max
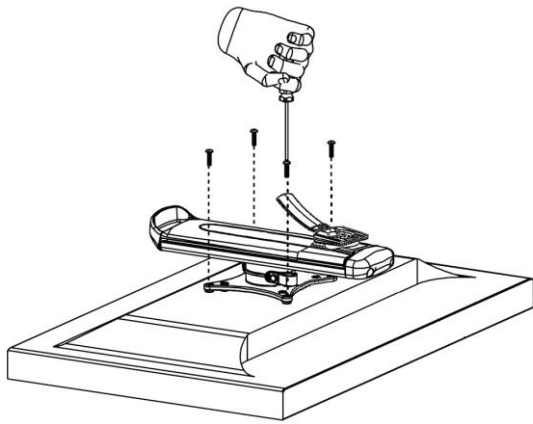

Step 1: Attaching pole to rod

- Screw the M8 x 122mm threaded rod into the base of the pole.
- Tighten the threaded rod firmly.

Step 2: Assembling the clamp

- If required, drill a hole in the desk as per hole size guide.
- Place the kidney grommet against the pole base, then put the rod through the desk hole.
- Place the flat bar against the underside of the desk and wind on the nut.

Step 3: Securing to the desk

- Use a spanner to tighten the nut on the underside and ensure assembly is secure.
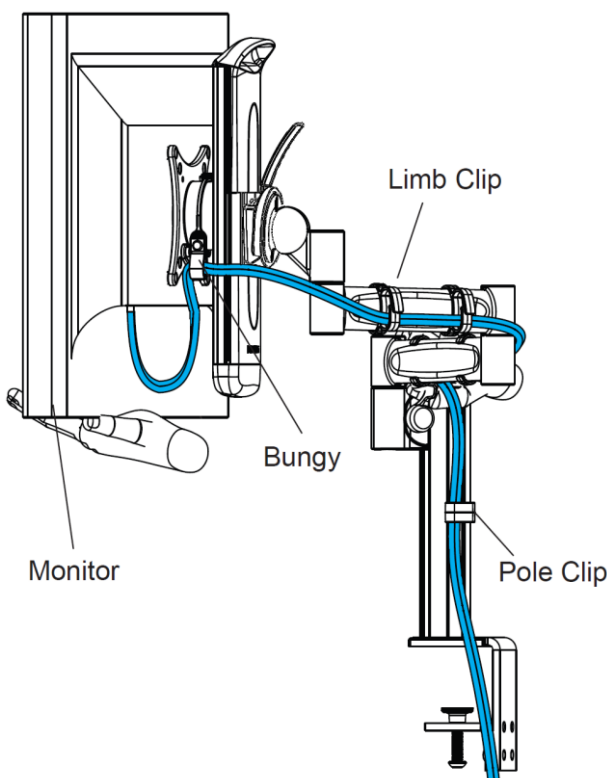

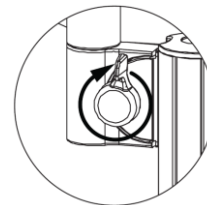

Monitor Arm Assembly & Cable Management

INTEG

Step 1: Attaching the monitor

- Place monitor face down on a clean surface.
- Attach 4 x M4 x 16 pan pozi screws (supplied) to BladeRunner™ Vesa

Step 2: Attaching the arms

- Click the monitor/VESA into the arm
- Turn wedge knob anti clockwise until fully open.
- Insert loose flap of wedge into slot first.
- Once the arm is at the desired height, turn the knob clockwise to tighten.

Click

Step 3: Attaching cables

- Cables from the monitor go through the Bungy cord
- Through the Limb cable clips
- Through the Pole clips
