Laptop Trae Mate

Let Trae Mate take care of your laptop

Like many people we use our laptops on a daily basis as we freely move from home, to work and around the world. The activity nature of work demands such freedom.

When we dock down at our desk and fire up our laptop we suffer the same issues many laptop users experience. A lack of space, poor ergonomics and the missing link in productivity – the second monitor.

Let Trae take care of these issues.

Slide in your laptop for better ergonomics

Once you dock at your desk, simply slide your laptop onto Trae Mate. The handy cable capture slots ensure cables are easily located and ready for you to connect to your laptop. When Trae is attached to our modular arms, you will quickly benefit from increased ergonomics and gain back valuable desk space.

Explode your productivity

With your laptop in place and your second screen in operation, you will quickly benefit from the increased productivity gains achieved through using a second screen. Cut and paste or transfer data with ease without having to close down one application and open up another.

Built to Last

Trae is robust in nature made from heavy duty metal with a durable powder coated finish. This product will last.

Laptop Tray Usage

Træ Mate Features

Integrated tabs securely hold the laptop in place

Cable catches ensure cables are out of the way but easy to find

Key Trae Mate Specifications

About Integ & Trae

Integ is a manufacturer and designer of modular monitor arms and office accessories. Proudly made in New Zealand by Modtec Industries, our difference lies in our range of modular components, which come together to deliver unique mounting solutions. This Lego® styled approach drives our design philosophy from idea to product installation.

We named this product after Trae Davies, Grandson of our founder Bruce Davies. Like Trae, this product is made in New Zealand.
